

A world of Applications

imaging

medical

handtools

industrial automation

valves

aerospace

security camera

pruning scissors

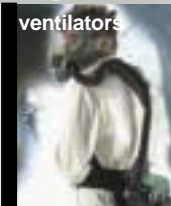

HVAC

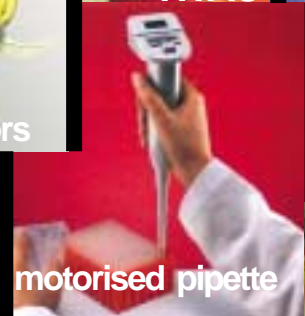

respirators

printer

ventilators

motorised pipette

factory automation

dental hand tools

textile

insulin pump

access control

Medical equipment

(infusion and positive displacement vacuum pumps, physiotherapy and prostheses, surgical instruments, analysers, scanners, therapy, equipment...) Hand - held tools, surgical tools (dental instruments, inoculation guns, screwdrivers, saws and medical drills...)

Safety and Access control

(cameras, locks, search systems, signalling, fire curtains, bar - code readers, ticket dispensers...)

Robotic and Automation

(conveyors, remote - controlled vehicles, industrial robots, semi - conductors...)

Scientific and Measuring Instruments

(cameras, recorders, tracers, laser measuring and levelling, microscopes, theodolites, thermometers, viscosimeters...)

Textiles

(knitting machines, sewing machines, weaving looms, motorised thread guides...)

Civil Aviation and Aerospace

(cameras, automatic pilots, electrical actuators, gyroscopes, indicators, flight instruments, satellites, optical scanners, emitters/transmitters, valves...)

Other examples

(document handling, office equipment, reduced models, optics, car and transport, environmental control, audio - visual, events, trimming cutters...)
